Disregard my last message. The new DCN may cause more trouble than what its worth.

The DCN is 158ALGK to be available in Compass and EAS. Also please remind Phillip to send me the copies of his receipts so I can fund his purchases accurately. Thank you.

Subject: Creating a DCN prefix for Gold King mine

Christine,

It has been suggested that a DCN prefix be created specifically for Gold King Mine. It would make it easier to track funds related to Gold King Mine. I thought the 158ALGK might work. Please set up a DCN prefix that will work in Compass and EAS. If you have any questions give me a call. Thank you.
